FLIGHT ASSURANCE

PRESS RELEASE

Flight Assurance Chosen for Innovative IS-BAO Auditing Program

Baldwin Aviation has selected Flight Assurance as a designated auditor for the BALDWIN SAFETY CO-OP™ PROGRAM

Tucson, September 15, 2015: Flight Assurance today announced it had been selected as one of three auditing companies in support of Baldwin Aviation's innovative Safety CO-OP™ program.

The selection process was competitive among IS-BAO approved auditors approved to meet the standard contained in IBAC (International Business Aviation Council) Policy 2015-3. "I am extremely pleased to have been selected as one of three approved auditors to initially support this program. The small operator now has a cost affordable alternative to the full blown IS-BAO implementation process while maintaining adherence to the IS-BAO," said J. Bruce Huffman, President and Chief Executive Officer of Flight Assurance.

Qualifying organizations participating with Baldwin in the SAFETY CO-OP™ program will be fully implemented with IS-BAO standards while retaining operational control. Documentation (manuals, forms, reports) and procedures will be tailored specifically to the client's operations. "This co-operative model, which partners small flight organizations with Baldwin's established, experienced IS-BAO registered organization, removes the most obvious and significant barriers – the cost, time and personnel required to implement IS-BAO,"

Headquartered in Tucson, AZ Flight Assurance is one of the nation's newest aviation consultancies specializing in operational regulatory consulting services for the operators of business aircraft.
